SUMMARY

Detail-oriented, organized, and meticulous employee. Works at fast pace to meet tight deadlines. Enthusiastic team player ready to contribute to company success.

EDUCATION

- B.Tech in Computer Science — SVPCET, Nagpur (2023–2027)
- 12th Class — Modern Public School, Jhansi (2022–2023)

Work Experience

Web Developer — Carrodo Premium (Feb 2025 – Present)

- Developing eCommerce websites using React and Next.js with a focus on SEO and performance.
- Managing deployments with Docker and GitHub Actions.

Freelance Web Developer — QDRA (Jun 2024 – Jul 2024)

- Built full-stack web apps using MERN stack and TypeScript.
- Integrated Auth0 authentication, MongoDB databases, and blockchain features.

CTO — Frolics Fashion (Jan 2024 – Jun 2024)

- Led WordPress development, plugin integration, and hosting infrastructure with security focus.

Web Developer — AllSwift Solutions (Sep 2024 – Oct 2024)

- Offered IT consulting, coordinated internships, and facilitated remote training.

SKILLS AND TOOLS

- **Programming Languages:** C, C++, Python
- **Web**: HTML, CSS & JavaScript, Tailwind, Typescript, MERN, NextJS, WordPress, Solidity
- **Database**: MongoDB, MySQL
- **Blockchain:** Web3, Smart Contracts, Solidity, Decentralized Applications(DApps)
- **Tools:** Git, GitHub, Power BI
- **DevOps**: AWS S3, LINUX, DOCKER, KUBERNETES

ACADEMIC PROJECTS

- **Portfolio App | Next.js, TypeScript, Tailwind, Docker, Kubernetes:**
    - Designed and developed a personal portfolio using Next.js and TypeScript with responsive, mobile-first design.
    - Implemented server-side rendering (SSR) for performance and SEO optimization.
    - Containerized the app using Docker for consistency across environments.

- **Crypto Wallet | MERN, Web3, Prisma, NextAuth.js**:
    - Web3 integration for seamless cryptocurrency wallet interactions.
    - Authentication with NextAuth.js ensuring secure user login.
    - QR code generation & scanning for quick wallet interactions.
    - Focus on security & UX for a seamless cryptocurrency management experience.

- **CryoW3 | MERN, Next.js, Crypto APIs**:
    - Built a modern **cryptocurrency news platform** using **Next.js**.
    - Aggregates and displays **real-time crypto news**, **market updates**, and **social media content**.
    - Features a **sleek, responsive UI** with **secure user authentication**.
    - Includes **interactive components** and seamless integration with multiple **crypto news APIs** and **social platforms**.

- **Blogging Website | React, Vite, Docker, AWS:**
    - Developed a modern web application using **React**, **Next.js**, and **Vite** for optimized performance.
    - Implemented **Docker containerization** for consistent development and deployment environments.
        - Leveraged **AWS services** for scalable cloud infrastructure:
        - **S3** for static content storage
        - **EC2** for application hosting
        - **Route 53** for domain management
        - **CloudFront** for content delivery

QDRA App | MERN, TypeScript, Auth0:
- Created a gamified mining platform with referral and subscription systems.
- Developed the QDRA Wallet App using the MERN stack and TypeScript, featuring a gamified coin mining system, secure Auth0 authentication, and a referral and subscription model.

- **Budget Buddy App | MERN, TypeScript, Auth0**:
    Created a gamified mining platform with referral and subscription systems.

ACHIEVEMENTS

- **Club Secretary & Event Coordinator — Engineering India Club**
    Led the successful planning and execution of a hackathon, managing logistics, team coordination, and participant communication.
- **5-Star rating in C++ & Python** on *Hacker Rank*.

CERTIFICATIONS

- **Web Development Bootcamp –** Udemy
- **C++ Course** – Udemy
- **JavaScript (Basic)** – HackerRank
- **CSS (Basic)** – HackerRank
- **Hackathon** – SVPCET Certified, Engineering India Event, TGPCET Verified, Flipkart Grid, GHRCE
